Spelling Arcade Access Guide

How to sign in, share access and use each mode

1. Adult account sign-in

- Teachers, parents and tutors create the account. Pupils do not sign up.
- **New user:** choose your role, enter your adult email address, confirm you are an adult, create a password, then continue.
- **Returning user:** sign in again using the same email address and password.
- On a private device, you can choose to stay signed in.
- On school or shared computers, leave the 30-day sign-in option unticked.

2. Guest preview

- Click **'Start full-game guest preview'.**
- This gives **10 minutes** of the real full game.
- It is ideal for trying the resource before creating an account.
- No email is needed for the guest preview.

3. Classroom access – pupil devices

- A teacher signs in first.
- Open the Classroom access area and create a classroom session.
- Share the join code or QR code with pupils.
- Pupils join on their own devices.
- No pupil email address is needed.
- Classroom mode can **support** up to 40 active devices.

4. Whole-class whiteboard mode

- A teacher signs in first.
- Open Whiteboard Mode for interactive whole-class teaching.
- Display the game on the board and play together.
- This is useful for modelling, discussion and quick spelling practice.
- No pupil sign-in is needed for whiteboard use.

5. Home access

- A parent, tutor or home educator signs in first.
- Open the Home access area and create a home session if needed.
- Share the join code with home devices, or use one device directly.
- Home mode is useful for homework and home learning.
- Home sessions can support up to 8 active devices.

6. Helpful reminders

- Use **'Sign out'** when you finish on shared devices.
- If you already have an account, do not register again — just sign in with the same email and password.
- If you forget your password, use the sign-in page to access your account again.
- Pupil progress stays on the device or browser being used unless a future feature adds syncing.

Quick summary

Adults sign in. Pupils join with a code. Guest preview is for quick trials. Classroom mode is for pupil devices. Whiteboard mode is for whole-class teaching. Home mode is for family learning.
